- A solo dancer may not compete in the same discipline with two different choreographies.
- In Group/Formation categories dancers may participate in two productions nominated in the same category: but dancers must be on the stage in time, can't be in late because of changing costume. (So it's possible but not recommended.)
- **There may be contraction of categories with less than 3 competitors.**
- Any deviation from the age group regulations results in CLASSIFICATION TO THE LAST PLACE.
- The same choreography may not be nominated in two or more different disciplines and/or categories.
- **Stage sets** are allowed only in Fantasy. In other dance disciplines the stage sets (decoration) are prohibited (chaire also).
- **Hand props** or tools are allowed in Dance Show, Contemporary/Modern, Fantasy, Fitness Dance, Acrobatic Show, Street Dance, Open. Size: the dancer or dancers can hold it in hands as a tool, for example: shawl, hat, big size sheet, ribbon, and net.
- **In Mini age group, only acrobatic jumps with hand support are allowable.** Free cartwheel (arabel), flick, free turnover, salto etc. are NOT allowed in age group Mini. (Exception of Fitness Dance Solo Mini and Acrobatic Show Solo Mini.)
- **The size of the stage is 12 x 10 m**, dancers should aim to dance on the whole surface of the stage, but they may not leave the stage during the performance. Stepping off the stage results point deduction in all disciplines and categories.
- **In case of any technical problem or miss, the performance can only be valuated if the dancer keeps dancing.** If the dancer leaves the stage, he/she may not called to stage again. The director has the right to allow that in the end of the category concerned, but off-competition, the dancer can perform the choreography.
- **Continuous lip-synch (mouth movement for singing the text of the music, karaoke) is forbidden in all disciplines.** Mimicry is important for the proper performance, one or two words, or even sentence are also allowed, but continuous singing for the music results point deduction.

- **Lifting:** element, when one of the dancers leaves the floor with both legs with the physical help of one or more other dancers.
- **Acrobatic element:** movement when the body turns around one of its axis, for example: somersault, cartwheel, flick, salto (except walkover, which is a flexibility element).
- **It is the responsibility of the choreographer, trainer, and dance master to nominate performances in accordance with the regulations. Any deviation from regulations recognized during the competition results in disqualification or classification to the last place.**
- **This is a competition of amateur dancers, coaches or other professional dancers can't be nominated in solo or duo-trio categories, only in group or formation.**
- Music duration specified and described in the detailed regulations of disciplines should be applied. More than 5 seconds difference from the specified music durations results in CLASSIFICATION TO THE LAST PLACE.
- The music can be brought on flashdrive or on CD.
- The music (on CD-s or on flashdrive) should be handled over to the DJ latest 30 minutes before being on stage. Not having the music in due time, the dance will be disqualified.

8. PRELIMINARIES, SEMI-FINALS AND FINALS

- **Finals** are organized in case of having nominations up to 12 in a certain category.
- **Semi-finals** round in case of having more than 12 nomination.

The results of semi-finals should be handed out to publish them on the Results Publication Area as soon as possible after the concerned competition round. The Speaker is obliged to communicate the list of the qualified dancers for the next round.

It is a general rule that the same category should always be adjudicated by the same jury also in different rounds, except for the case of vis maior.

9. ADJUDICATION, EVALUATION

The adjudication system is a combined system. Each dance is adjudged always by at least five properly examined and experienced judges. These principles of the adjudication are the followings:

- **Technical content**, and in case of performances of 2 or more dancers, the **synchrony**: 0-10 point
Here the following aspects are evaluated: the difficulty level and number of dance technical elements, the diversity of the elements, the elegance and balance of the dancer, the body control, how the dancer can follow the dynamics of the music, changes of rhythm and in case of 2 or more dancers the synchrony.
- **Choreography and overall impression**: 0-10 points
In the evaluation of the choreography the followings are important: the synchrony of the chosen music, dance steps and elements, the age and dress of the dancer, the dancers should dance on the whole surface of the stage, in group choreography there should be changes in pattern and configuration.
- **Presentation**: 0-10 points
Here the jury evaluates the artistic impression, the ability to express emotions, story or message interpreted and transmitted to the audience.

Calculation:

The judge summarizes the 3 points given according to the above 3 aspects and forms a rank among the competitors. From the placement numbers coming from the judges, the skating system calculates the final placement of the competitors.

The skating system is a fair calculation system which well filters favoritism, because the final result depends on placement numbers decided by the majority of the judges. (If only one judge puts forward or back a competitor, it cannot influence the result.)

For the preliminaries and semi-final rounds the so-called X (cross) system is used.

This means that after the judges pointed for the three principles as described above, in accordance with the rank indicated by the summarized point values, they issue the X-es and /-es (half-cross) as possible for the given category.

For example: for a category with 15 dancers (semi-final) six (6) crosses and two (2) half-crosses may be issued. The numeric value of one cross is ten (10) point, the numeric value of a half-cross is (1) one.

The six competitors getting the highest results will get into the final. In case of mathematical equality on the sixth position, all the competitors on the sixth position get into the final, so it may occur that we have 7 or 8 competitors in the final.
